

Ministry of Education launches international work place experiences for them, and provides financial aid for them to go to seven countries of South Asian to experience overseas activities during the summer vacation.

(The Division for Indigenous People and Special Education provide)

In order to deepen and cultivate the language potential advantages of new inhabitants' children and connect them to international human resource movement, K-12 Education Administration, Ministry of Education launches international work place experiences for them, and provides financial aid for them to go to seven countries of South Asian to experience overseas activities during the summer vacation, hoping to enhance their international knowledge and working skills, and eventually to improve employment competition.

Factories, Active International (VN) Co., Ltd., Chinli Plastic Industrial Co., Ltd., and Luxgen VIETNAM, are included in the visiting lists. Hopefully, the new inhabitants' children can be trained by Taiwanese businessmen and learn working skills and the ability of language communication through job scenario.

K-12 Education Administration, Ministry of Education held two batches of activities, supporting 24 new inhabitants' children to go to Vietnam. The first batch was from July 17th to 23rd, 2016 and the second August 21st to 27th, 2016. In the year of 2017, the number of students was increasing to 36 new inhabitants' students, who went to Vietnam to experience work place activities from July 16th to 22nd.
